

IEEE Xplore Digital Library

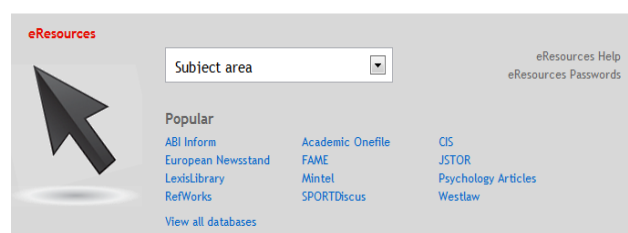

Learning and Information Service

IEEE Xplore provides full text access to high quality technical literature for engineering, computing and other technology subjects. IEEE Xplore is produced by the Institute of Electrical and Electronics Engineers, and associated publishers, and includes the IET Electronic Library.

How do I access IEEE Xplore?

Go to the Library Portal at <http://www.solent.ac.uk/library/>

- Choose **Engineering** or **Computing** from the **eResources** subject lists then click on IEEE Xplore/IET Electronic Library.
- Access IEEE Xplore direct on campus. Off campus you will need to enter your **university username and password**. Click on the **i** icon for more information.

Searching IEEE Xplore

Enter your terms in the **Search** box on the main page

- Use quotes “...” to search for a phrase.
- Use the wildcard asterisk (*) to find alternative word endings e.g. comput* will find computer, computers, computing etc.

Note: to search across the **full text** you need to use the **Advanced Search**.

Click on **Advanced Search** to search within the full text of articles.

- On the Advanced Search screen select the **Full Text & Metadata** radio button before entering your search terms.

Advanced Search Options

Search Results

Quick Abstract - view a short summary of the article.

PDF - view the full text of the article.

Refine / Expand Results
