

Eduroam - Windows 8 connection instructions

This wireless service requires a working wireless adapter in your computer that can use at least 802.11a (54Mbit/s), 802.11G (54Mbit/s) or faster and be able to utilize WPA2 security.

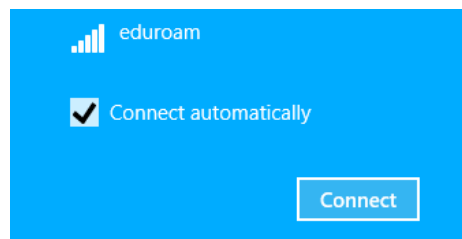

1. Click on “wireless” icon (third starting from left).

2. Click on “eduroam”.

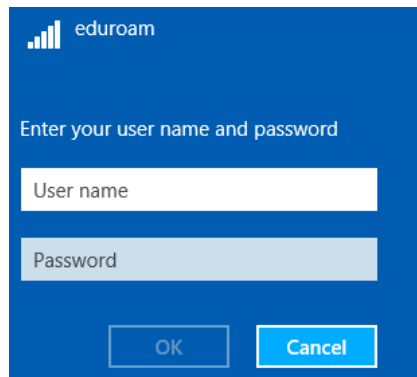

3. Click on “Connect automatically”.

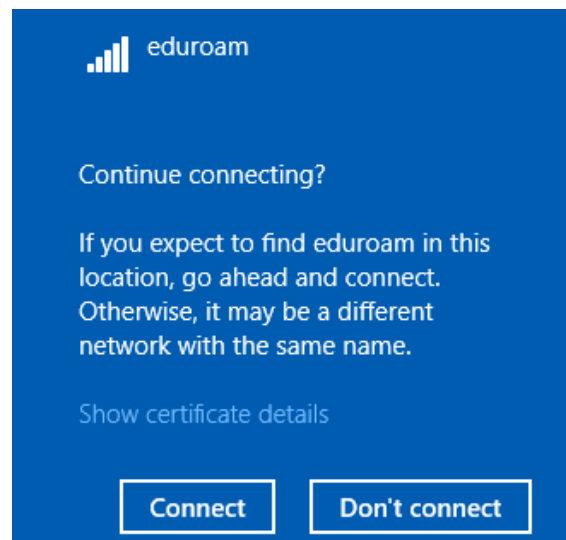

4. Enter **your Solentemail address** as your username and your novell password. Click “OK”.

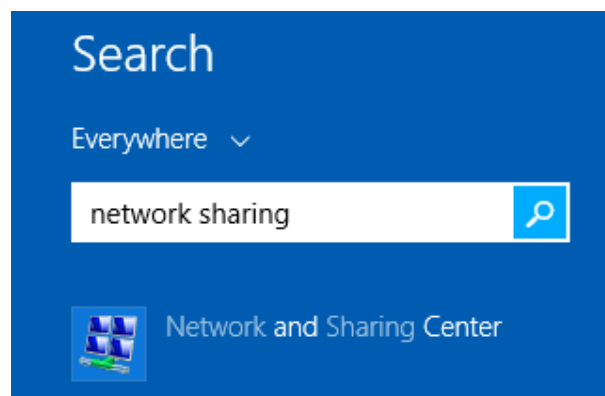

Note: This is not your email address password but the password you use to log in to your computer at work.

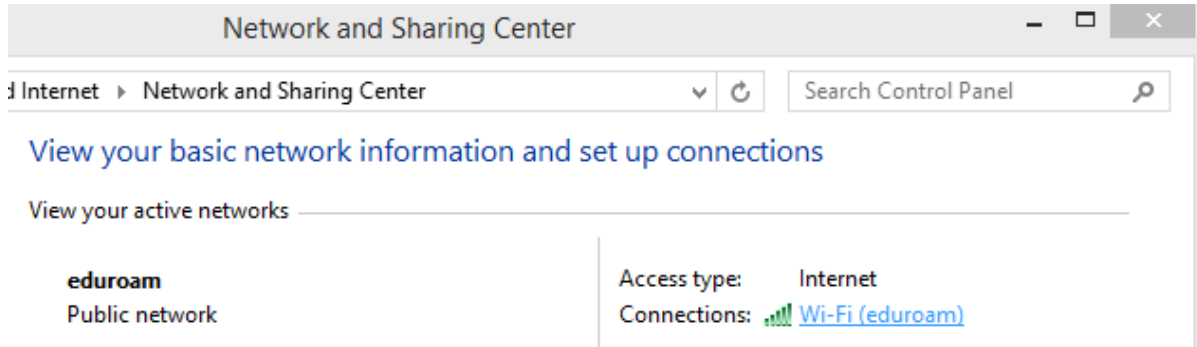

5. Click "Connect".

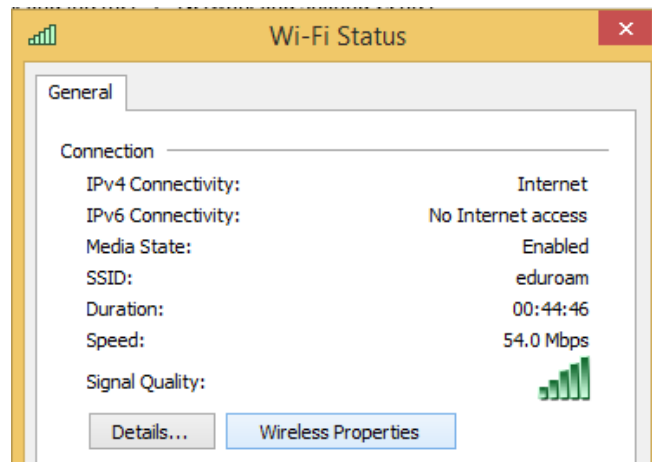

6. Click "Start Menu". Type in Search box: "network sharing". Click "Network and Sharing Center".

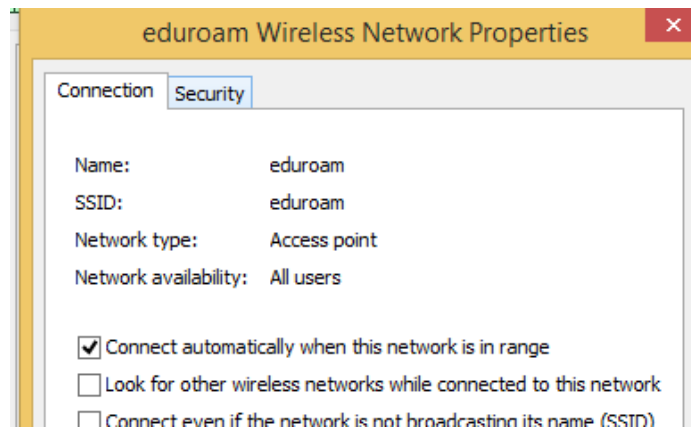

7. Click on "Wi-Fi (eduroam)".

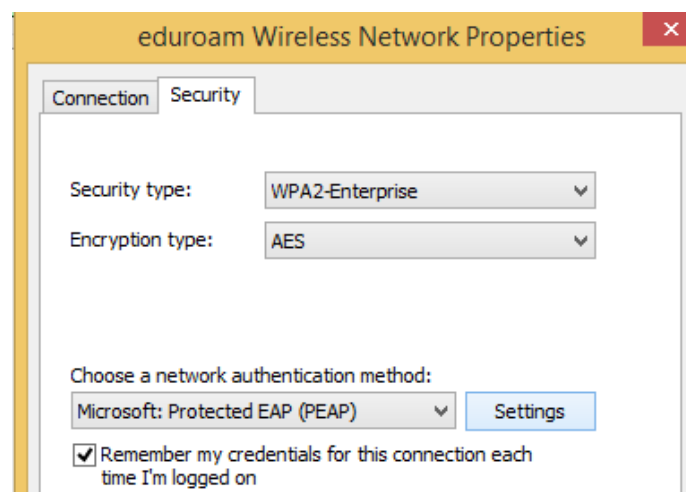

8. Click on “Wireless Properties”.

9. Click on “Security”.

10. Click on “Settings”.

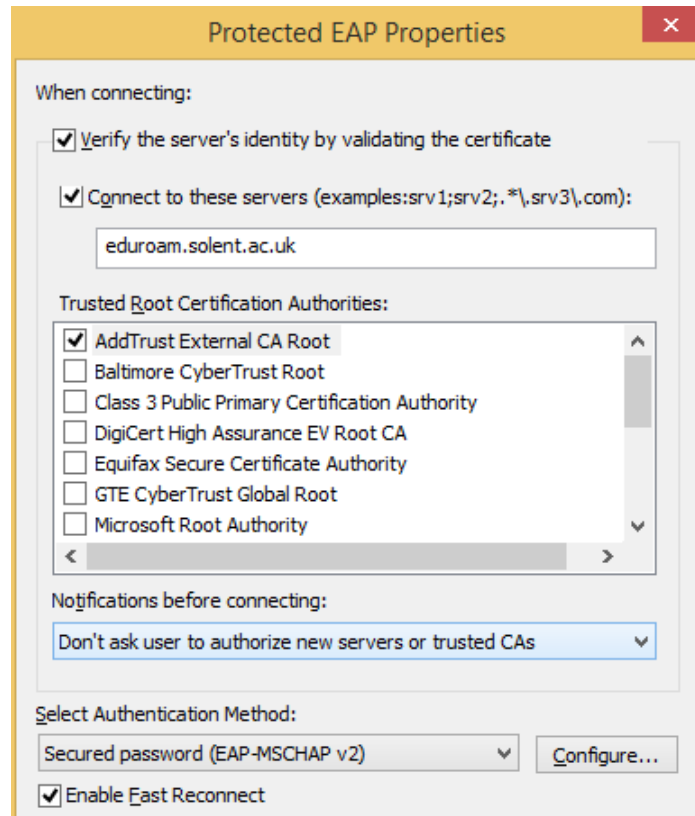

11. Tick “Verify the server’s identity by validating the” and “Connect to these servers”.

Enter eduroam.solent.ac.uk and tick “AddTrust External CA Root”.

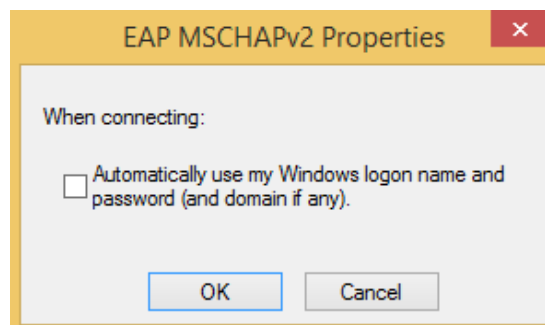

Select “Don’t ask user to authorize new servers or trusted CAs”.

Click on “Configure”.

12. Untick “Automatically use my Windows logon name and password”.

Click “OK” and close other open properties.

13. Follow steps 1-4 again to securely connect.
